Kit Contents: Model: 750 - R2452

- Bracket side mount masonry x 2
- Screw 8x10 THPSZ Phil AB Zinc x 4
- Screw 8x 5/8 Mush Head 33611923 x 2
- Infill Panel R700 Galaxy x 1
- Instruction Infill Panel x 1

1. Position the Unit

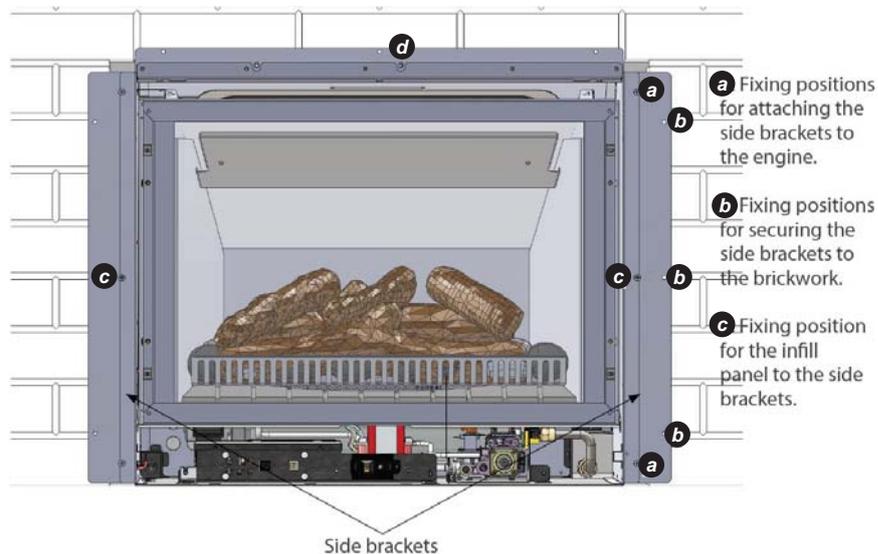

- Place the unit in front of the enclosure.

2. Attach the two Infill Panel side brackets

- Attached the side brackets (included with the panel), with the screws provided, to the engine, using the top and bottom fixing positions. **a**

3. Slide the unit into the enclosure

- Slide the unit into the enclosure. Secure the side brackets, using the three (3) outer screw positions on each bracket, **b** to the brickwork using suitable fasteners (not provided).

4. Attach the Infill Panel

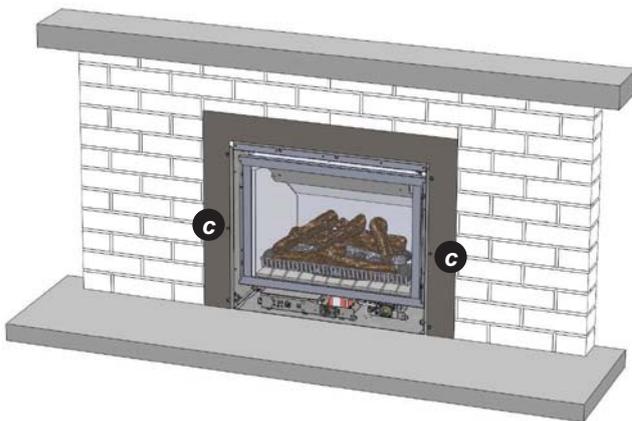

- Attach the infill panel to the side brackets using the middle screw position on either side **c**. Refer to images above, and also on the next page.

5. Attach the 3-sided Frame

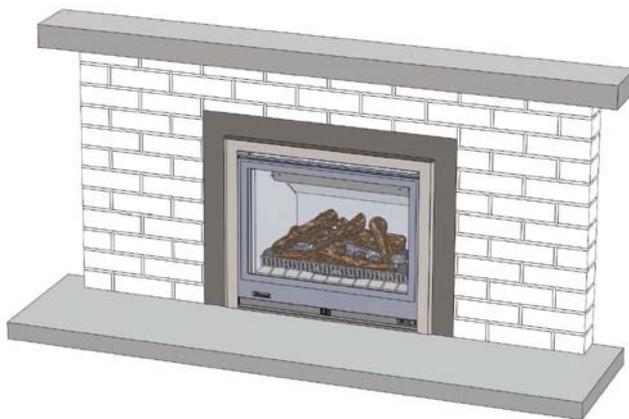

- To install the 3-sided frame, position in front of the Engine and connect the CAT5 cable to the frame.
- Slide the two top frame hangers into the corresponding frame slots on the unit and push the lower section into the recess of the Engine.
- Secure the top section, using the two (2) screws provided **d**, via the three U-shaped fixing positions on the frame.
- Secure the lower section in place using the two bottom side screws. Refer image on the next page.
