

Rinnai

Heat Pump Installation Kit

Suitable for Rinnai's AR & GR Series Heat Pumps

Rinnai has developed a Heat Pump Installation Kit designed with plumbers in mind. The kit is compatible with our AR and GR Series heat pumps and includes everything needed for a complete installation: insulation, tempering valve, copper tubing, and fittings.

By providing all necessary components in one kit, it helps plumbers save significant time on each installation.

**Everything you need
in the one box**

**Suitable for Rinnai's AR
& GR series heat pumps**

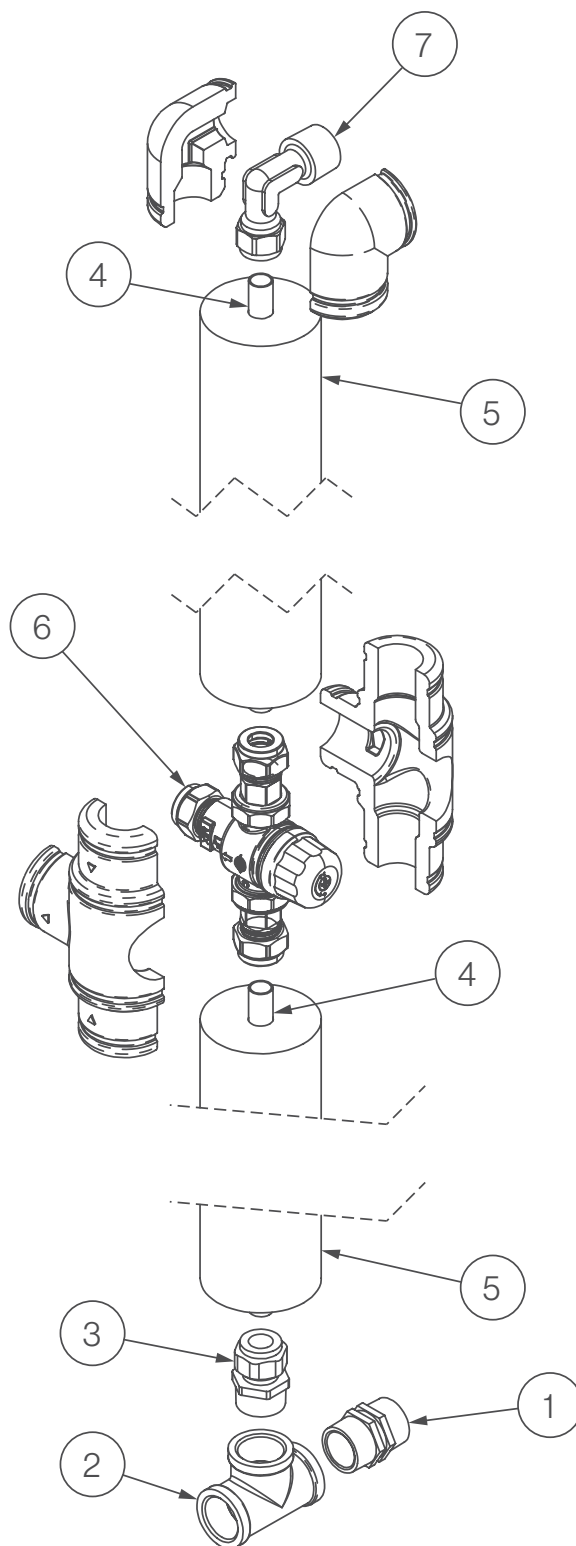

**Reduces the time
on installations**

**Simple and easy
to assemble**
