^Star-rating depends on installation and flueing configuration.

Rinnai Gas Fires appliances are fitted with either a 'heat guard mesh' or layered glass as the primary safety guards. Some installations, for example where young children are present, may require the purchase of an additional, third party safety guard. For more information please refer to owner and installation manual accompanying the heater. With our policy of continuous improvement, we reserve the right to change, or discontinue at any time, specifications or designs without notice.

Note: All images contained within this brochure are for illustrative purposes only, the colours and finishes of the products featured are as close to the respective product range as photographic lighting and printing processes allow.
