

Rinnai

Gas Fires

Contemporary Heating

It's the real thing

Stunning fireplace without the hassle

There's nothing more appealing than cosying up to romantic flickering flames. Framed in a sleek and modern casing, Rinnai's range of Gas Fires offer the relaxed ambiance of traditional fires without all the mess and hassle that goes with owning one.

Skillfully crafted with the latest technology, our Gas Fires push conventional boundaries by replicating the feel of a real fire with an efficiency of up to an impressive 5.5* star energy rating.

Designed with meticulous attention for detail and installation flexibility, the range suits a wide range of applications. From retrofitting into existing fireplaces to easily fitting into new homes, Rinnai Gas Fires will create a stunning centrepiece and bring warmth into your home.

At Rinnai, we're all about comfort

For over 50 years, Rinnai has supplied Australian homes with a range of appliances that help people lead comfortable, safe and efficient lifestyles.

Being driven to create comfort means that we really care about our products and your experience from start to finish. We're focused on developing products with the latest technology and our level of quality is second-to-none, so you can rest assured knowing Rinnai will deliver.

*Star rating depends on installation and flueing configuration

650 & 750

Experience real radiance

650 & 750

The Rinnai 650 & 750 Gas Fires are the perfect solution to creating an ambient atmosphere. Experience the latest in design innovation, featuring Rinnai's exclusive ember bed technology.

With a flush, thin frame and wide viewing glass, these captivating Gas Fires create a beautiful look that will catch the eye of any design conscious individual.

Designed specifically to suit existing fireplaces with narrow dimensions, the 650 & 750 Gas Fires are ideal for smaller spaces.

All Rinnai 650 & 750 Gas Fires come with an easy to use remote, with room temperature display and flame control.

Features

- High heat output up to 6kW of warmth
- Unique ember bed technology
- Easy to use remote, with room temperature display and flame control
- Wide viewing window with minimal frames
- Double glazed front - no need for a mesh guard, enhancing visual aesthetics
- Designed for replacement, renovations or new homes
- Available with either natural wood or glowing stones
- 3 or 4 sided fascia options available
- Wi-Fi (optional)

650 / 750 - Matte Black

650 / 750 - Titanium Grey

750 - Matte Black XL

650 / 750 - Glowing stones

650 / 750 - Natural wood log set

950 & 1250

Gas Fires with wide appeal

950 & 1250

The 950 & 1250 Gas Fires create a bold statement but flick off the light in the room and romantic dancing flames come alive.

More than just a design feature both the 950 & 1250 Gas Fires come equipped with high-performing heat exchanger technology, rapid warm time & easy-to-use remote - all this with an incredible 5.5 star energy rating*.

The mix of modern frames and burn options offer you ultimate flexibility to create a space that's truly your own. At over 1.3 metres wide and with optional side reflectors, the Rinnai 1250 gives the illusion of an everlasting flame even when the appliance is not in use.

Features

- Incredibly energy efficient 5.5 star energy rating*
- Powerful heating performance over 8kW (950) & 8.4kW (1250), perfect for open plan living and large areas**
- Modern or classic? Select either pebbles or logs to suit your style
- Stainless steel or black? Select a fascia option to match your tastes
- Safety mesh guard to provide peace of mind and eliminate reflections
- Easy to use remote, with room temperature display and flame control
- Flexible flueing options
- Wi-Fi (optional)

*When installed using extended flue.

**When using short flue.

Sapphire

A touch of luxury and design

Sapphire

With gentle flickering flames and cosy warmth, our Sapphire Gas Fire delivers a powerful ambiance and heat output. With compact inbuilt or free-standing options available, the Sapphire's 4.0 star clean burning technology makes it an attractive and cost effective way of heating your home.

Perfect for the replacement of an old, aging wood or space heater, the Rinnai Sapphire is specifically designed to fit into an existing fireplace. This Gas Fire comes complete with added safety features including a stylish glass dress guard and may also be installed in a mock fireplace.

Features

- High 4.0 Star energy efficiency
- 6.9kW heat output suitable for heating open plan areas
- Instant heat source with the ambience and glow of flickering flames
- Inbuilt and freestanding models
- Easy to use remote, with room temperature display and flame control
- Available in 5 stylish fascia options – stainless steel on black, stainless steel, black, classic silver or classic bronze
- Stylish glass dress guard for protection
- Freestanding option available
- Wi-Fi (optional)

Installation Options

Creating a False Fireplace

Whether you are building a new home, working through a major renovation or just want to revamp your living room, the Rinnai zero clearance option is the perfect solution to creating a new space.

If your home doesn't have an existing fireplace, creating a false fireplace is the next best thing. To ensure an easy installation into a timber frame or other combustible materials, the Rinnai 1250 and 950 are designed with an integrated zero clearance box.

The Sapphire and Slimfire can be installed with the purchase of an additional zero clearance box and the 650 and 750 require an additional zero clearance frame.

Weatherproof Box

For an alternative installation to a false fireplace, the Rinnai 1250, 950, 750 & 650 can be installed into a weatherproof box. A cavity is cut into the existing blank wall and the fireplace is installed onto a bracket that allows the back of the fire to sit outside housed in a tightly sealed box. This option allows the fire to be built into an existing wall without taking up any extra space in the room. The weatherproof box is sold separately.

Existing Masonry Fireplace

Another great option for many homes is installing a Gas Fireplace into an existing brick chimney. Turn an unused fireplace into a stunning feature or replace an existing Gas Heater with a Rinnai Gas Fireplace to create the ultimate solution for comfortable living. The Rinnai Sapphire, Slimfire, 650 & 750 are designed to suit existing masonry fireplaces.

*Star-rating depends on installation and flueing configuration.

Rinnai Gas Fires appliances are fitted with either a 'heat guard mesh' or layered glass as the primary safety guards. Some installations, for example where young children are present, may require the purchase of an additional, third party safety guard. For more information please refer to owner and installation manual accompanying the heater. With our policy of continuous improvement, we reserve the right to change, or discontinue at any time, specifications or designs without notice.

Note: All images contained within this brochure are for illustrative purposes only, the colours and finishes of the products featured are as close to the respective product range as photographic lighting and printing processes allow.
