Honeywell Home

Smart Thermostat
# 9000 color touchscreen

Quick reference

HOME. Touch to display Home screen.

FAN. Select fan mode.

SYSTEM. Select system mode (heat/cool).

MENU. Touch to display options. Start here to set a program schedule.

*Thermostat location. Quickly identify which thermostat is in control of a specific area.

Current schedule. Touch an arrow to change temperature setting and set a temporary hold.

*Override. Touch to temporarily override the program schedule.

Indoor conditions. Shows indoor temperature and humidity.

Current date and time.

Current status. Shows system mode (heat/cool).

Outdoor conditions. Outdoor temperature and humidity appear after registration.

Settings and display will vary depending on whether thermostat is set for residential or business. Search online for **Resideo 69-2814EFS for the User Guide to see all options.*

Connecting to your Wi-Fi network

1. If thermostat is asking if you want to connect to a Wi-Fi network, touch **Yes**. If thermostat is not asking if you want to connect to a Wi-Fi network, Touch **MENU > Wi-Fi Setup**.
2. Touch the name of the network you want to use. The thermostat displays a password page.
3. Using the keyboard, touch the characters that spell out your home network password.
NOTE: If your home network is not shown on the list, touch **Rescan**.
4. Touch **Done**. The thermostat displays "Connecting to your network. Please wait…" then shows a "Connection Successful" screen.
5. Touch **Next** to display the registration information screen.
6. Note your Thermostat MAC and Thermostat CRC. You need these numbers to complete online registration.

Disconnecting your Wi-Fi network

If you need to disconnect the thermostat from your Wi-Fi network (for example, you're replacing your router), follow these steps:

1. Touch **MENU**.
2. Select **Wi-Fi Setup**.
3. Touch **Disconnect from Network**. The thermostat will display a question to confirm your selection.
4. Touch **Yes** to confirm that you want to disconnect from the network.
5. Touch **OK** to display the menu.

Reconnecting your Wi-Fi network

1. Touch **MENU**.
2. Select **Wi-Fi Setup**.
3. Touch the name of the network you want to use. The thermostat may display a password page.
4. To enter a password, touch characters to spell out your home network password, then touch **Done**.
5. The thermostat displays "Connecting to your network. Please wait…" then a "Connection Successful" screen.
6. Touch **Next**.
   - If your thermostat is registered, you will see your signal strength and other status information. Touch **Done**.
   - If the screen displays "Register Online for Remote Access," follow instructions on page 3 in 69-2814EFS.

Setting the time/date

1. Touch the current time. The screen displays **Set Time/Set Date**.
2. Touch **Set Time** or **Set Date**.
3. Touch ▲ or ▼ until the proper time/date is displayed.
4. Touch **Done** to save or **Cancel** to ignore changes.

Setting system mode

1. Touch **SYSTEM** to display system settings.
2. Touch desired option: Heat, Cool, Off, Automatic, Emergency Heat (heat pumps with aux. heat).
3. Touch **Done** to save and exit.
NOTE: The **Automatic** and **Emergency Heat** system settings may not appear, depending on how your thermostat was installed.

Adjusting program schedules

1. Touch **MENU**.
2. Select **Create/Edit Schedule**.
   - Touch **View/Edit** to view the full schedule and make a quick adjustment.
   - Touch **Guide Me** to create a schedule by answering simple questions.
